

My Passion for Gosford RSL Max Potential

I heard about the Gosford RSL Max Potential program almost three years ago. My sister had a friend who was involved and he organised a concert which my sister performed at. Naturally I went along to support her. I left that night astonished at how this one young adult pulled off such a successful evening. So when Glenn (the Gosford RSL Max Potential Co-ordinator) came to my school last year and gave the pitch to get applicants for this years I was already wanting to be on board before he began selling it.

Coach Ana (Left) and Alex (Right) during a coaching session.

Gosford RSL Max Potential is unlike anything I have ever participated in and probably unlike anything I will ever participate in. It has given me the tools and the instruction manual to build my life and reach my 'max potential'. Before this year I was an intelligent but uninspired student and now I am organised and have a road to follow.
