

Message of Support for “Max Potential” in Tweed Heads

I regret I am unable to join you for the launch of “Max Potential” today as

Parliament is sitting this week in Sydney.

On a daily basis we hear about the issues facing young people in our community as well as the problems caused by those who appear to have no direction and little respect for others.

However, it is a fact that the youth of today are the leaders of tomorrow but without the tools or opportunities to develop the skills required, many talented young people will not have the chance to reach their full potential.

The “Max Potential” program, supported by Future Achievements Australia, strives to do just that, not simply for our young people but also for those involved in mentoring the program.

I would like to acknowledge the involvement of Seagulls and the ClubsNSW in promoting this program as an extension of the ongoing support provided to the community by the club industry.

I look forward to seeing the results of this youth leadership and community coach program making a difference in our community.

Geoff Provest MP
State Member for Tweed
