

# Gosford RSL Max Potential

Many schools, who have been involved in **Max Potential** this year say, "We have seen a significant growth in student confidence to take on new challenges, set goals and sharpen focus".

Students have spoken of the special relationship they have developed with their coaches and have valued the guidance provided to them. It has been a rewarding experience not only for the students but also for their teachers who get to witness the satisfaction and sense of accomplishment the students gain in achieving and presenting their community service projects.

This program does emphasize the importance of giving young adults the chance to grow in

personal leadership and to demonstrate the potential that they each possess.

"The opportunity to journey with a young adult, offering encouragement, insight and support, often provides that extra bit of momentum needed for them to push through and achieve their goals," said one of the **Max Potential** 2010 coaches.

Due to the overwhelming success, the **Gosford RSL Max Potential** program will again run, for its fourth year, in 2011. Anyone interested in being involved in the **Max Potential** youth leadership development program, especially being a coach, should contact Maureen Horne at Gosford RSL Club on 4323 2311 for more information.

Congratulations Gosford RSL on the leadership opportunities offered to our students through your **Max Potential** program in 2010. Jess Cairncross, Jade Condon and Rhys Schofield from Year 11 have been great ambassadors for the school. Congratulations to them.
