

# A Bright Future through Gosford RSL Max Potential

## Josh Sees His Goals Accomplished

Gosford RSL Max Potential is an amazing program which has helped me begin my journey towards success. The great difference in my life made with the help of my coach is that I have begun to set goals for myself, keep focused on what I want and have become more independent. I am still eagerly seeking advice when needed, as it is a part of my journey to success, to learn with and from others.

Seeing as I have learnt to set goals for myself, I can already see a brighter future ahead. Since joining in the Max Potential experience I have been able to obtain a steady job, began saving money for a car and my school results are increasing. I recommend Gosford RSL Max Potential to the any youth that have the ability to participate. All of us have different meanings for success and over the 22 weeks you will be in the Max Potential program you will be helped in finding your path to

success alongside your great coach and all of Max Potential.
