

## Max Potential Connect Group 2 – update 8<sup>th</sup> June 2010

On Tuesday 8<sup>th</sup> June Max Potential students from Broken Hill High School, Willyama High School and Menindee Central School, and their community coaches, met together at the Demo club and had some fun exploring pushing themselves to achieve results they never thought possible!

Mr Brian Slater (CEO Silverlea Employment) came along and spoke about a time in his business when he had a choice to accept something that was happening that he had no control over and try to make it work in his business, or fight the change. He decided to make the most of it, developed a positive attitude and achieved amazing results for his business, and for his clients! Brian stayed while everyone had a go at belly dancing (!) and got out of their comfort zones, and tried to push through their feelings of awkwardness and embarrassment to achieve something for themselves, and for the benefit of the group.

Most students have now had five coaching sessions with their community coaches, and have started the planning process for their community service project. Students used the session on Tuesday to refine their plans, and to start the planning for the Showcase (not to be missed event – 3pm at the Legion Club, Sept 2<sup>nd</sup> 2010)! Secret tip : Look out for the electrical appliances on display at the Showcase – what could these possibly have to do with personal leadership?
