

Gosford RSL Max Potential makes a Difference in the lives of Many.

A little support and help goes along way

I greatly appreciate the whole Gosford RSL Max Potential team, and in particular, my personal leadership coach, who have assisted me to enhance my key family relationships, especially with my Dad. I am making significant progress in achieving “authentic success” within myself and greater understanding of the positive influence this can have on others around me.

Community Coach Liam (Left) and Rhys Williams (Right).
“I am making significant progress in achieving ‘authentic success’ within myself and greater understanding of the positive influence this can have on others around me.”

Another great feature about Gosford RSL Max Potential is we get to meet other students from a variety of schools to work as a group at the Connect Group meetings. This really makes the whole process fun and worthwhile as we realise that we, aren’t the only ones with challenges & just need a little bit of a nudge to get us going in the right direction. A little support and help goes along way, with family and friends there to

support you, It’s just great to know there are others out there to help you and guide you, and I really do enjoy doing this program and having the people there to help me.

Thanks so much Gosford RSL Max Potential !!!
